Instructions

You may not use a calculator to answer any questions in this test.

Work as quickly and as carefully as you can.

You have **45 minutes** for this test.

If you cannot do one of the questions, **go on to the next one**. You can come back to it later, if you have time.

If you finish before the end, go back and check your work.

Follow the instructions for each question carefully.

This shows where you need to put the answer.

If you need to do working out, you can use any space on a page.

Some questions have an answer box like this:

Show your **working**. You may get a mark.

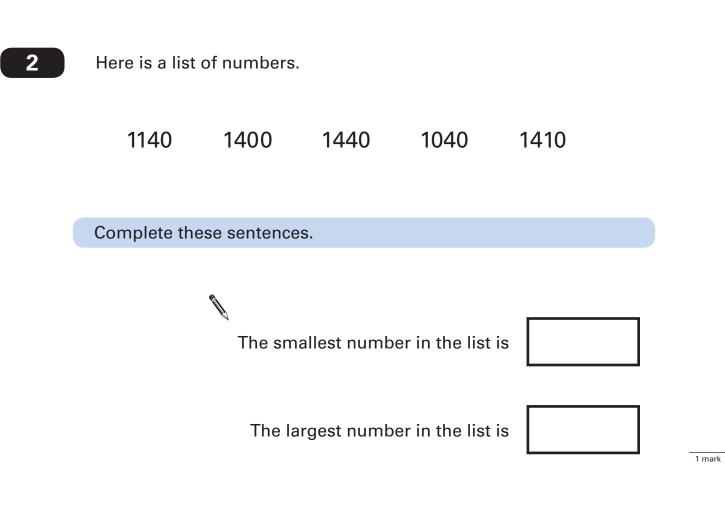

For these questions you may get a mark for showing your working.

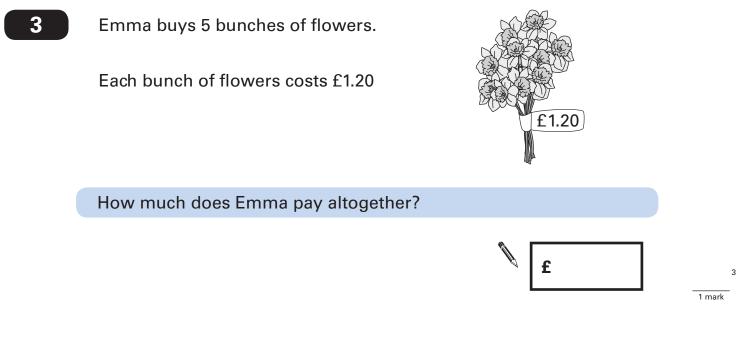

Calculate 546 + 423

1

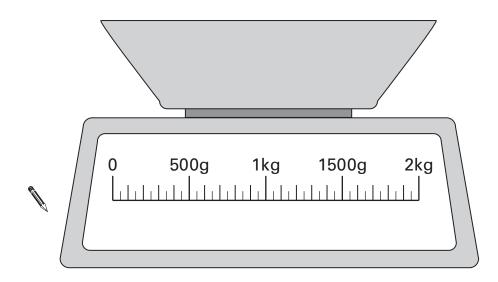

Luke needs 200 grams of flour.

4

Draw an arrow $(\frac{1}{2})$ on the scale to show 200g.

1 mark

There are **three** classes at Park School.

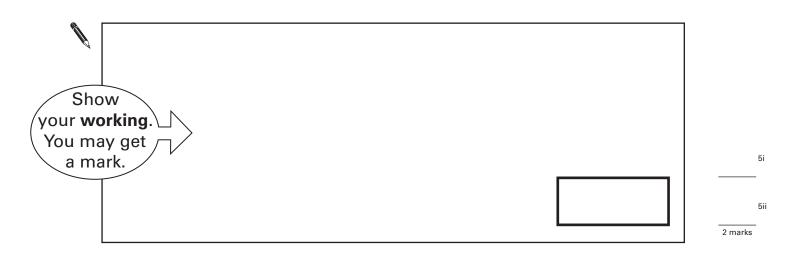

There are **78** children altogether.

Look at the table.

Children at Park School

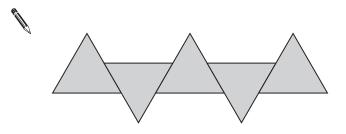

Class	Number of children
Class 1	23
Class 2	30
Class 3	?

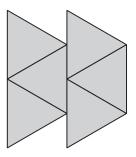

Calculate how many children are in Class 3

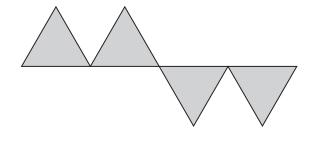

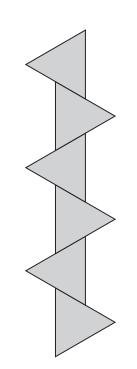

Here are some patterns made with identical triangles.

1 mark

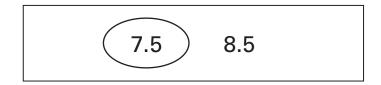

8 Here are some pairs of numbers.

For each pair, circle the number that is **nearer to 5**

One has been done for you.

2.5	5.5	

1 mark

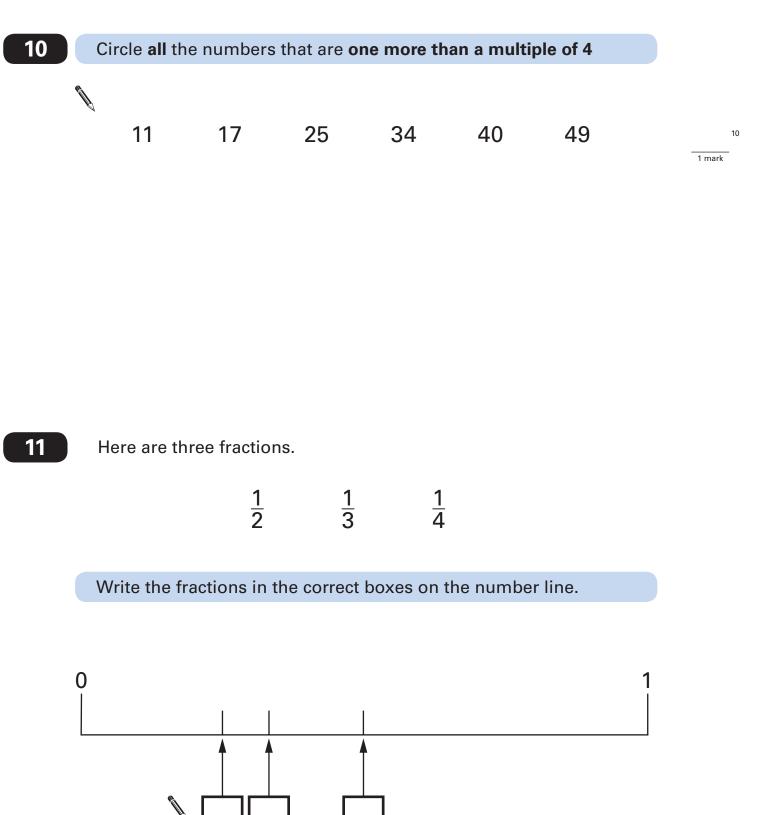

Here is part of a net for a cuboid.

Draw in the missing face to complete the net.

Use a ruler.

This chart shows when some children were asleep one night.

13 Match each fraction to the percentage which has the same value.

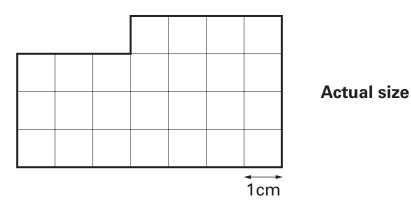

One has been done for you.

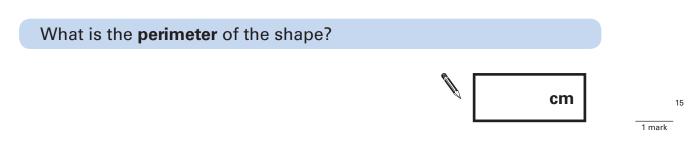

15

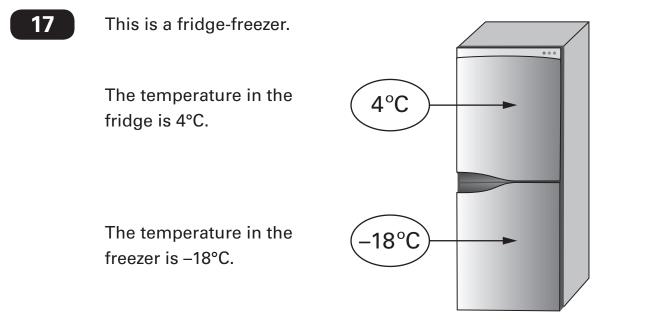

Here is a shape divided into centimetre squares.

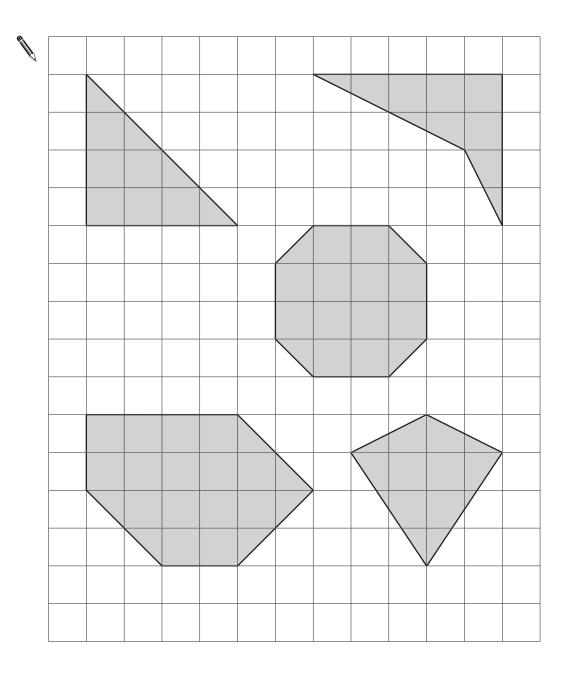

What is the difference in temperature between the fridge and the freezer?

	degrees	
--	---------	--

17 1 mark Here are some shapes on a square grid.

One of the shapes has two right angles.

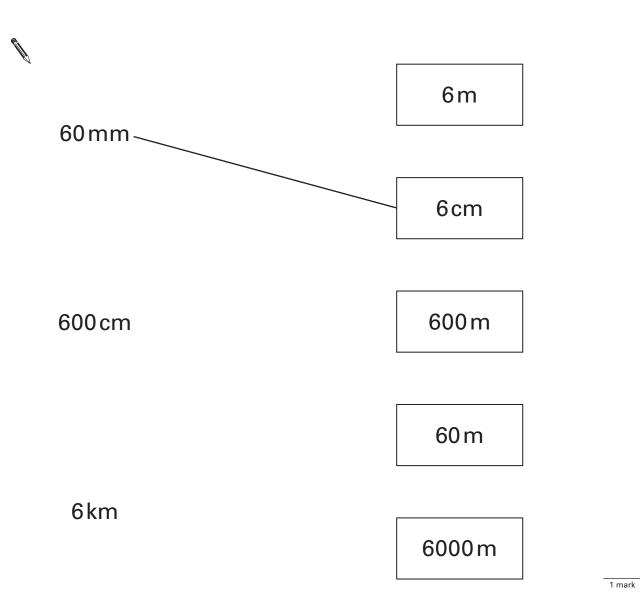

Tick (\checkmark) the shape.

1 mark

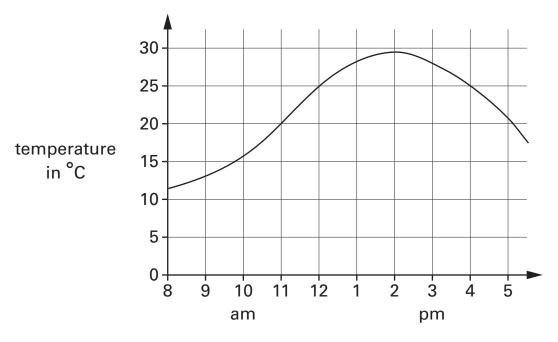

19 Match each length to the correct box on the right.

One has been done for you.

20 This graph shows the temperature on a day in July.

Here is the calendar for the August when Luke was on holiday.

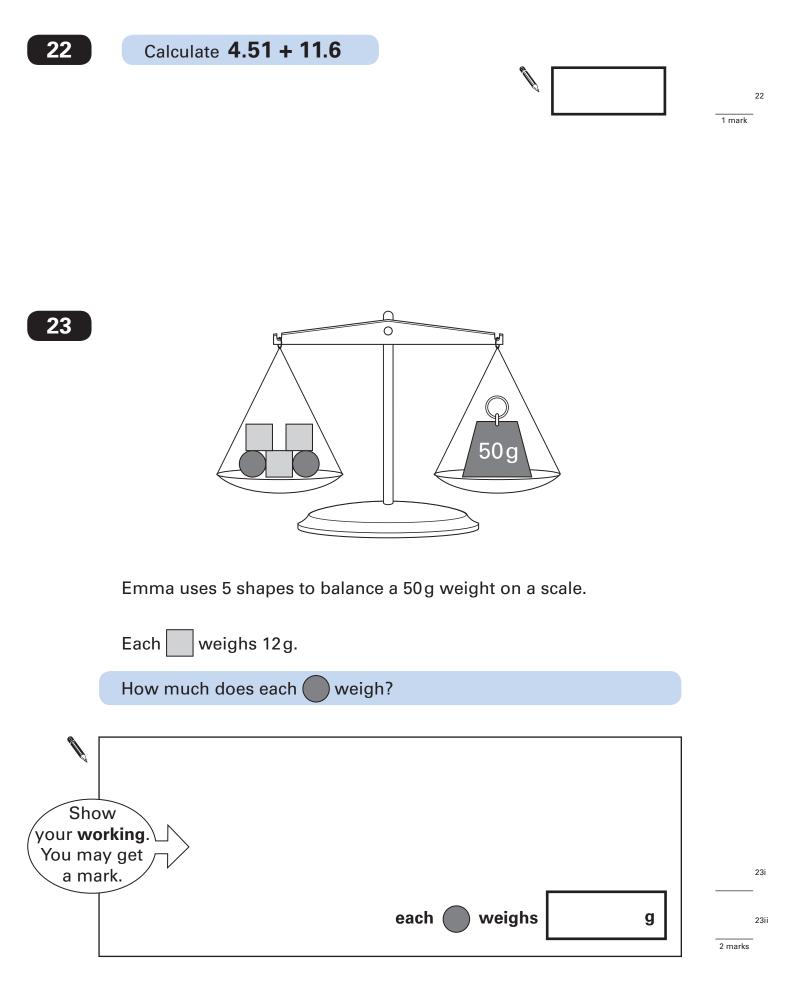

August						
Monday	July 29	5	12	19	26	
Tuesday	July 30	6	13	20	27	
Wednesday	July 31	7	14	21	28	
Thursday	1	8	15	22	29	
Friday	2	9	16	23	30	
Saturday	3	10	17	24	31	
Sunday	4	11	18	25	Sept 1	

Luke came back from holiday on August 4th.

He went on holiday two weeks **before** that date.

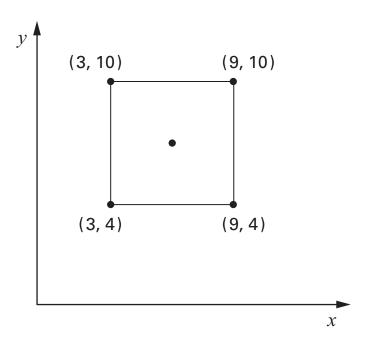

On what date did Luke go on holiday?

July	21
	1 mark

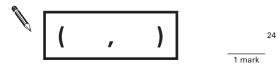

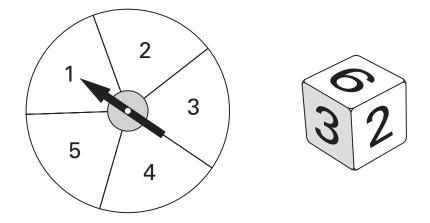

Here is a square drawn on a coordinate grid.

24

What are the coordinates of the point at the centre of the square?

A spinner has the numbers 1 to 5 on it.

A dice has the numbers 1 to 6 on it.

The dice is rolled and the pointer is spun.

Emma says,

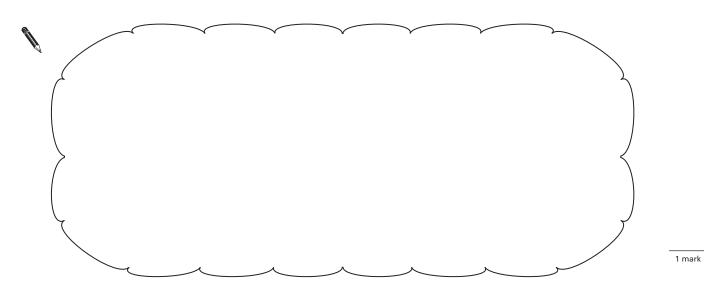

25

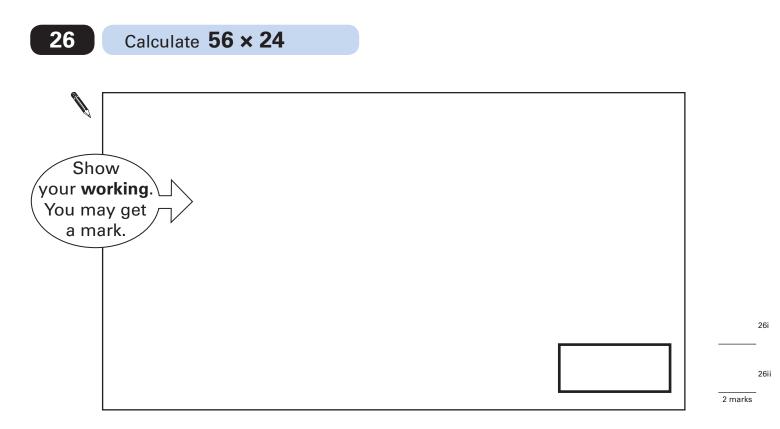

'You are more likely to get an odd number on the spinner than on the dice'.

ls she	correct?
Circle	Yes or No

N Yes / No

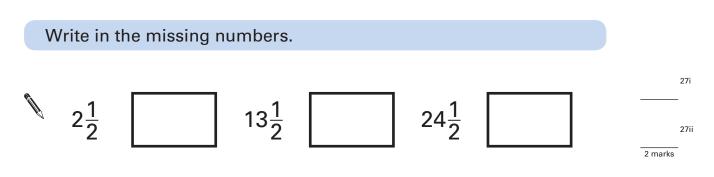

Explain how you know.

27

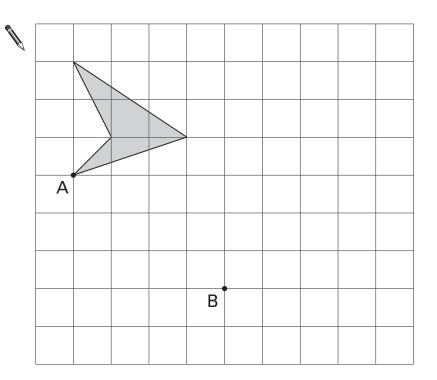

The numbers in this sequence increase by equal amounts each time.

Here is a shaded shape on a square grid.

Reshma **translates** the shape from point A to point B.

Draw the new position of the shape after the translation.
