

Matchstick puzzle 10

10. Make 9

Two puzzles for the price of one, here!

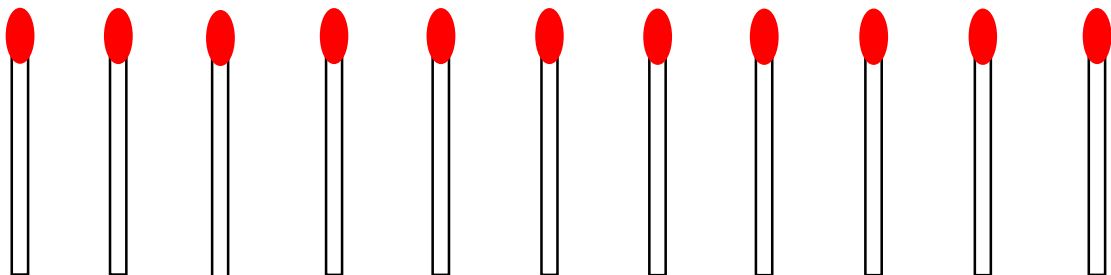

1. Turn just three matchsticks into 9.

No you can't cut
each one into three
parts!!
(Good try!)

2. Now rearrange these 11 matchsticks to make a nine:

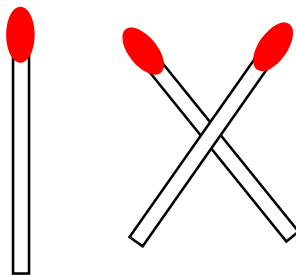

Matchstick puzzle 10 - answer

10. Make 9

By an amazing stroke of good fortune - this is how to do it!

1. The first one can be done by using the Roman numerals for 9, which is IX.

2. The second is just the word nine, written using the eleven matchsticks!
